PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in SQL, Python, Power BI, and Tableau, specializing in transforming raw data into actionable business insights. Experienced in building automated dashboards, KPI reports, and analytics pipelines to support management decision-making. Strong background in data cleaning, ETL processes, and performance analysis. Actively seeking Data Analyst opportunities in the UAE.

TECHNICAL SKILLS

Data Analysis & BI: Power BI, Tableau, Grafana, Google Data Studio
Programming: Python (Pandas, NumPy, Matplotlib)
Databases: SQL, MySQL, Data Warehousing
Data Processing: ETL, Data Cleaning, Validation, Power Query
Reporting & Automation: Dashboard Automation, KPI Tracking, Excel (Pivot Tables)
Analytics: Trend Analysis, Forecasting, Basic Machine Learning

PROFESSIONAL EXPERIENCE

Data Analyst Intern | Finanshels.com | Calicut, India
Aug 2024 – Oct 2024

- Built interactive dashboards for real-time project tracking using Power BI and SQL.
 - Automated reporting workflows, reducing manual reporting time by approximately 30%.
 - Assisted in workflow optimization and improved stakeholder reporting accuracy.
 - Supported management with data-driven insights for operational decision-making.
-

PROJECTS

CRM Sales & Customer Data Analysis | SQL, Python, Power BI | 2025–2026

- Analyzed CRM data (leads, deals, clients, invoices, payments) to evaluate sales pipeline performance.
- Built KPIs including lead-to-deal conversion rate, revenue by client, deal stage, and payment status.
- Identified sales funnel bottlenecks to improve follow-ups and revenue realization.
- Designed interactive Power BI dashboards for sales and management reporting.
